Serdar

I looked at the results more closely
Yes, they all fail
Thank you

Thanks Serdar,

I really appreciate your help. I will call you tomorrow when I get a break in training. I hope you are not getting too much rain
Thanks for everything
Chris

If these are the results for the 3 large soil piles in property one, yes we already talked about it. All 3 failed dioxins. Charlie told me that if they are treated for metals and pass the t-clip, then they can go out as TSCA waste. Of course that will be your call.

We have blended one segment in Property one with Enviroblend, and scraped a road through in contaminated areas in property 2 (almost done). Tomorrow we will start digging RCRA area in property 2 and start surveying property 3.

I hope all is well with you.
Take care
Serdar

Hi Serdar

Can you go over these with Charlie and Dane tomorrow?

Thank you
Chris

Subject: Shiloh - Dioxin Results Attached

Hi Chris,

Attached are the dioxin sample results for Area 8 and
Area 9 sections, and also the IPs.
Note they are listed in ng/kg.

Thank you,
